# SUBJECT INDEX

A

Aberrant salivary gland tissue in mandible, 1086
Abscess, cervicofacial, by actinomyces, 793
  parapharyngeal space, delayed management of, 1041
  pulp, associated with actinomyces, 207
Abstracts of current literature, 109, 224, 337, 449, 565, 674, 785, 897, 1008, 1123, 1333
Accepted dental remedies, 448 (B. rev.)
Accidental injection of toxic fluids, 1287
Acid formation by saliva, role of Lactobacillus casei and Streptococcus salivarius in, 675 (Abst.)
Actinomyces, cervicofacial abscess by, 793
  pulp abscess associated with, 207
Adamantinoma: brief review of condition with description of case treated by immediate replacement with tantalum and acrylic prosthesis following resection of affected area of mandible, 110 (Abst.)
  observations on origin and nature of, with special reference to certain muco-epidermoid variations, 1334 (Abst.)
Adenocarcinoma, anaplastic, 401
  involving upper lip, 17
Adenoma, sebaceous, in dog, 304
Adrenochrome monosemicarbazone sodium salicylate, clinical investigation of, 230
  observations on use of, in dental practice, 52
Adrenosem salicylate; clinical investigation of adrenochrome monosemicarbazone sodium salicylate, 230
Age changes in periodontium of mouse, 430
Albright's syndrome; oral melanotic pigmentation in polyostotic fibrous dysplasia, 857
Allergic problems in dental practice, 675 (Abst.)
Allergies, drug, 109 (Abst.)
Alpha Omega fraternity, 334
Alveolar crest, architectural pattern, and lamina dura, origin of registration of, in dental radiograph, 749
  osteitis, report on use of crystalline trypsin in treatment of, 1166
Alveoloclasia, anterior; force distribution in splinted anterior teeth, 484
Amblystoma punctatum, origin of teeth in, 987
Ambulatory dental patient, chemanesia combined with analgesia for, preliminary report on, 504
Ameloblastoma, 111
  of mandible; clinical pathological conference (Case 3), 185
  vascular, 863
Amelogenesis and dentinogenesis, histochemical study of, 1323
American Academy of Dental Medicine, 444
    annual meeting of, 333
    rehabilitation seminar to be feature of midwinter meeting of, 1004
  of Oral Pathology, 218, 333, 1232, 1330
  of Periodontology, 781
  Association of Endodontists, 105, 444, 1234
  Board of Oral Medicine, Inc., 219
    of Pathology, 672, 1233
  Institute of Dental Medicine, 671
    case history service, 218
Amputation neuroma, 475
Amyloid disease, generalized systemic, oral manifestations of, 743
  oral, as complication of myelomatosis, 735
Analgesia, chemanesia combined with, for ambulatory dental patient, preliminary report on, 504
Anaplastic adenocarcinoma, 401
Anatomy and histology, oral, 323, 437
  of head and neck, frontal section, 1236 (B. rev.)
Anesthesia, local, use of epinephrine with, in hypertensive patients, 566 (Abst.)

of lip, 575
of mandible from irritation by prosthesis (beitrag zum problem: zahnäztliche prothese und mundhölen-karzinom), 450 (Abst.)
of tongue; clinical pathological conference (Case 1), 175
mucosal, as result of irradiation, 1123 (Abst.)
Carcinosarcoma of maxillary sinus, 1065
Cardiac arrest, unexpected, treatment of, by external electric stimulation of heart, 785 (Abst.)
resuscitation course, Cleveland, six years' experience with, 337 (Abst.)
Caries, dental, biology of (biologie der zahn karies), 223 (B. rev.)
Carious lesion, proteolytic organisms of, 1105
Cartilage implantation, retrocondylar; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty, 899
Cat-scratch fever, 383
Central giant-cell reparative granuloma of mandible, 11
odontogenic fibromyxoma of mandible, 690
Cervicofacial abscess by actinomyces, 793
Cheek, anesthesia of: early sign of carcinoma of maxillary sinus, 897 (Abst.)
Cheiloplasty; macrocheilia, 1025
Chemanesia combined with analgesia for ambulatory dental patient, preliminary report on, 504
Cherubism, 952
Chin, reshaping of; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty, 677
Chirurgie des glandes salivaires (surgery of salivary glands), 223 (B. rev.)
Chondrosarcoma of maxilla, 97
Chorionepithelioma, metastatic, of gingival tissue, 813
Cinefluorography, with image intensification, in study of temporomandibular joint, preliminary work on, 63
Cleveland cardiac resuscitation course, six years' experience with, 337 (Abst.)
Clinical and laboratory research, 224, 675 (Absts.)
case reports, instructive, 1239
endodontics; manual of scientific endodontics, 108 (B. rec'd)
operative dentistry, 108 (B. rec'd)
pathologic conference, 175
pedodontics, 1007 (B. rev.)
Collagenous elements, innervation of teeth and periodontium after enzymatic removal of, 323
Collimating and filter system for protection in dental radiography, 627
Compound composite odontoma, 828
fracture of mandible and horizontal fracture of maxilla, 345
Condylar loss due to infantile osteomyelitis, 28
Condyles, partial removal of both; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty. Part I, 678
Congenital capillary hemangiomas of parotid gland—lesion characteristic of infancy, 109 (Abst.)
epulis, case of, 81
granular-cell myoblastoma of newborn, 1037
syphilis, periostitis ossificans of mandible secondary to, 1254
Cooperation between dental and medical professions; instructive clinical case reports, 1239
Cortisone and metacortandracine, use of, in odontostomatology, 449 (Abst.)
therapy, fate of patients with pemphigus under, 1009 (Abst.)
Cretinism, oral manifestations of, 938
Crystalline trypsin, use of, in treatment of alveolar osteitis, report on, 1166
Cumberland Hospital (Brooklyn), 1332
C.V.P., effect of, on gingival hemorrhage, preliminary progress report of clinical study of, 590
Cysts and tumors of jaws, 453
apical, cooperation between dental and medical professions in diagnosing and treating; instructive clinical case reports, 1239
dental, hyaline bodies in wall of, 1333 (Abst.)
dentigerous, of maxilla, 118
developmental median, of mandible, 75
mandibular dentigerous, potentialities of oral epithelium manifest by, 271
intraoral enucleation of, with implantation of Gelfoam and primary closure, 1033
median mandibular, 69
palatine, case report of, with criteria for differential diagnosis, 237
thyroglossal; thyroglossal tract abnormalities, 1131

Cystadenoma lymphomatosum, papillary, on occurrence of mucous cells in, 1091
Cystic disease, familial multilocular, of jaws; cherubism, 952
odontoma of mandible, 807

D

Dens invaginatus (dilated composite odontome). I. Variations of invagination process and associated anterior crown forms, 1204
II. Associated posterior crown forms and pathogenesis, 1303

Dentures, partial, 1122 (B. rev.)
Deutsche Gesellschaft fur Kiefer und Gesichtschirurgie (Germany Society for Jaw and Face Surgery), 672
fur Zahn-, Mund- und Kieferheilkunde, 781
Developmental anomaly of mandibular second and third permanent molars due to injury, 759
median cyst of mandible, 75
Diagnosis in oral surgery and oral medicine, studies in, 97, 556, 993
Dilantin sodium hyperplasia; Sturge-Weber disease, 388
Disease, Gaucher's, 158
Paget's, 643
of mandibular joint, 565 (Abst.)
periodontal, histopathology of human mandibular artery and arterioles in, 1047
Sturge-Weber, 388
Displacement, operative, of lower third molar complicated by emphysema, 355
Distoclusion and microgenia, operating methods for; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty, 787, 899
Dog, calcifying epithelioma of Malherbe in, 1081
compatibility of Vitallium and Austanium in completely buried implants in, 769
lip, benign hemangiopericytoma of, 422
sebaceous adenoma in, 304
Drug allergies, 109 (Abst.)
Dyclonine hydrochloride as topical anesthetic in dentistry, 623
Dysplasia, fibrous, of mandible, 285

E

Electric stimulation, external, of heart, treatment of unexpected cardiac arrest by, 785 (Abst.)
Embryology, oral histology and, 895 (B. rev.)
Emphysema, operative displacement of lower third molar complicated by, 355
Enamel organ epithelium, tumor of. 652
Endodontic medicament, universal: XP-7, 1317
treatment of mandibular first molar, 210
Endodontics, 90, 210, 313, 426, 532, 665, 765, 975, 1094, 1227, 1317
clinical; manual of scientific endodontics, 108 (B. rec'd)
postgraduate course in, 1005
Endodontology, clinical evaluation of Primacaine hydrochloride in practice of, 765
Endosteal fibrosarcoma of mandible, 661
Endotheliomyelosis—experimental model of "focal syndrome," 37
Enucleation of mandibular cyst, intraoral, with implantation of Gelfoam and primary closure, 1033
Eosinophilic granuloma of mandible, 801
Epidermoid carcinoma, pre-invasive, of oral cavity, 84
Epinephrine, topical, vasopressor effects of, in certain dental procedures, 614
use of, with local anesthesia in hypertensive patients, 566 (Abst.)

Epithelioma of Malherbe, calcifying, in dog, 1081
Epithelium, enamel organ, tumor of, 652
oral, potentialities of, manifest by mandibular dentigerous cysts, 271
Epulides; cysts and tumors of jaws, 453
Epulis, congenital, case of, 81
granular-cell myoblastoma of newborn, 1037
of newborn, 1219
Erythema multiforme exudativum, 363
European Association for Implant Dentures, 1331
Extraction of irradiated teeth; dental aspects of osteoradionecrosis, 1022

F

Face, management of fractures and soft-tissue injuries about, 785 (Abst.)
Facial and surgical prosthetics summer school, 782
Familial multilocular cystic disease of jaws; cherubism, 952
white folded hypertrophy of mucous membranes, 262
Fibromyxoma, central odontogenic, of mandible, 690
Fibrosarcoma, endosteal, of mandible, 661
of palate; clinical pathological conference (Case 1), 175
Fibrous ankylosis, intra-articular, of temporomandibular joint, 634
dysplasia of mandible, 285
polyostotic—Albright's syndrome, oral melanotic pigmentation in, 857
File and reamer widths, root canal, microscopic investigation of, 532
Filter and collimating system for protection in dental radiography, 627
Fistulas, thyroglossal; thyroglossal tract abnormalities, 1131
Fixed splints (festsitzende schienungen), 1334 (Abst.)
Fleming, Sir Alexander; presence of lysozyme in root canals, 1001
Fluids, toxic, accidental injection of, 1287
Focal syndrome, endotheliomyelosis—experimental model of, 37
Force distribution in splinted anterior teeth, 484
posterior teeth, 1268
Fractures and soft-tissue injuries about face, management of, 785 (Abst.)
compound, of mandible and horizontal fracture of maxilla, 345
jaw, simple orthodontic chrome steel appliance for treatment of, 23
multiple mandibular, 586
of mandible, head injury with, 470
intraoral open reduction, 480
tooth, incomplete, pulpitis resulting from, 665

G

Gas, dental, innovation in technique for, 897 (Abst.)
Gaucher's disease, 158
Gelfoam, intraoral enucleation of mandibular cyst with implantation of, and primary closure, 1033
Genioplasty, surgical correction of mandibular prognathism and retrognathia with consideration of. Part I. Surgical procedures to correct mandibular prognathism and reshaping of chin, 677
Part II. Operating methods for microgenia and distoclusion, 787, 899
German Society for Jaw and Face Surgery (Deutsche Gesellschaft fur Kiefer und Gesichtschirurgie), 672
Giant-cell reparative granuloma, central, of mandible, 11
tumor, benign, of mandible, 556
tumors and roentgen treatment, 1008 (Abst.)
Gingival hemorrhage, effect of C.V.P. on, preliminary progress report of clinical study of, 590
tissue, metastatic chorionepithelioma of, 813
of handicapped children, effect of vitamins on, 148
Gingivectomy pack, tissue reaction to, 923
Glaucoma, chronic simple, associated with foci of infection of teeth and right antrum, 500
Gongylonema pulchrum; nematode infestation of buccal submucosa, 612
Granular-cell myoblastoma of newborn, 1037
Granuloma, central giant-cell reparative, of mandible, 11
eosinophilic, of mandible, 801

H

Hamster pulp exposures, effect of blood clotting on, 313
Handicapped children, effect of vitamins on gingival tissue of, 148
dental treatment for, 601
Hard palate, pedunculated hemangioma of, 920
Harvard School of Dental Medicine, 782
Head and neck, frontal section anatomy of, 1236 (B. rev.)
injury with fracture of mandible, 470
Heart, external electric stimulation of, treatment of unexpected cardiac arrest by, 785 (Abst.)
Hemangiomas, congenital capillary, of parotid gland—lesion characteristic of infancy, 109 (Abst.)
pedunculated, of hard palate, 920
Hemangiopericytoma, benign, of dog lip, 422
Hemophilia B and its treatment, 1008 (Abst.)

Hemorrhage, gingival, effect of C.V.P. on, preliminary progress report of clinical study of, 590
observations on use of adrenochrome in dental practice, 52
Hemorrhagic telangiectasia, hereditary, 253
Hemostasis; observations on use of adrenochrome in dental practice, 52
Hemostatic; clinical investigation of adrenochrome monosemicarbazone sodium salicylate, 230
Henry, Earl, Memorial Clinic, annual, 1118
Hepatitis, serum, following dental procedures, 1009 (Abst.)
Heterotopic lymphoid tissue—diagnostic problem, 87
Histochemical methods, application of, to oral pathology, 296
Histologic response of amputated pulps to calcium compounds and antibiotics, 975
responses of rat oral tissues to nonoral tumor growth and to cancer chemotherapeutic agents. I. Periodontal tissues, 847
II. Tongue, salivary glands, and oral mucosa, 1075
Histology and anatomy, oral, 323, 437
and embryology, oral, 895 (B. rev.)
Histopathology of human mandibular artery and arterioles in periodontal disease, 1047
of teeth and their surrounding structures, Kronfeld's, 107 (B. rev.)
Hyaline bodies in wall of dental cysts, 1333 (Abst.)
Hydrogen ion concentration in mouth, determination of—comparison of glass, antimony, and quinhydrone micro-electrodes, 224 (Abst.)
studies of. II. Effects of rinsing and of beverages on hydrogen ion concentration, 1238 (Abst.)
Hyperthyroidism, 869
Hypertensive patients, use of epinephrine with local anesthesia in, 566 (Abst.)
Hypertrophy of mucous membranes, familial white folded, 262

I

Iliac bone graft and vertical osteotomy of ascending ramus, micrognathism corrected by, 1125
Image intensification, preliminary work on cinefluorography with, in study of temporomandibular joint, 63
Impacted teeth, removal of, antihistamines and their value in allaying postoperative distress in, 122
Implantation, retrokondyläre, eine operationsmethode zum vorbringen des unterkiefers bei distabliss, 338 (Abst.)
Implants, completely buried, in dogs, compatibility of Vitallium and Austanium in, 769
dental, in theory and practice, 1334 (Abst.)
Infancy, acute maxillitis of, 715
Infantile osteomyelitis, condylar loss due to, 28
Infection, acute, associated with deeply embedded impacted premolar, 1044
and tumors arising in and from periapical tissues, 1291
dental foci of, in arthritis, 824
of teeth and right antrum, foci of, chronic simple glaucoma associated with, 500
Infectious stomatitis, 1060
Injection of toxic fluids, accidental, 1287
Injury, developmental anomaly of mandibular second and third permanent molars due to, 759
head, with fracture of mandible, 470
Injuries, maxillo-facial, dental treatment of, 447 (B. rev.)
soft-tissue, and fractures about face, management of, 785 (Abst.)
Innervation of teeth and periodontium after enzymatic removal of collagenous elements, 323
Insurance plans, oral surgery coverage under; history of oral surgery, 9
Intensification of intraoral roentgenograms by toning, 839
Internal resorption, 193
of dentine, 90
International Congress of Stomatology, 1332
Dental Congress in Rome, 781
Intraoral enucleation of mandibular cyst with implantation of Gelfoam and primary closure, 1033
open reduction, 480
prolapse of antral polyp, case of, 450 (Abst.)
roentgenograms, intensification of, by toning, 839
Irradiation, mucosal carcinomas as result of, 1123 (Abst.)
Isotopes, radioactive, cellular and chemical remodeling of bones and teeth as revealed by, relative significance of, 167

J

Jaws and knee joints of adult rats, $P^{32}$ and $Ca^{45}$ uptake in, radioautographic study of, 541
cysts and tumors of, 453
familial multilocular cystic disease of; cherubism, 952
fractures, simple orthodontic chrome steel appliance for treatment of, 23

Jaws—Cont'd
multiple myeloma involving, 910
osteogenic sarcoma of, 1156
radionecrosis of, some aspects of problem of, 109, 675 (Absts.)
tumors of, and oral cancer, 108 (B. rev.)
primary, tumors of salivary gland origin presenting as, 1262
Jewish Chronic Disease Hospital (Brooklyn), two anesthesiology residencies for dentists at, 334
Joint, temporomandibular, cinefluorography, with image intensification, in study of, preliminary work on, 63
symptoms associated with, 339
Juvenile melanoma of tongue, 786 (Abst.)

K

Kaposi's sarcoma of hard and soft palate, 522
Kieferorthopädische praxis (orthodontic practice), 222 (B. rev.)
Knee joints and jaws of adult rats, $P^{32}$ and $Ca^{45}$ uptake in, radioautographic study of, 541
Kronfeld's histopathology of teeth and their surrounding structures, 107 (B. rev.)

L

Laboratory and clinical research, 224, 675 (Abst.)
Lactobacillus casei and Streptococcus salivarius, role of, in acid formation by saliva, 675 (Abst.)
Lamina dura, architectural pattern, and alveolar crest, origin of registration of, in dental radiograph, 749
Leprosy of mouth, 610
Leukoplakia of renal pelvis and bladder, 898 (Abst.)
Lip, carcinoma of, 1010 (Abst.)
dog, benign hemangiopericytoma of, 422
hypertrophy of; macrocheilia, 1025
squamous-cell carcinoma of, 575
upper, adenocarcinoma involving, 17
Local anesthesia, use of epinephrine with, in hypertensive patients, 566 (Abst.)
Long Island Jewish Hospital dental internships available, 1331
Loyola University School of Dentistry, 220, 1119, 1235
Lymphadenitis, nonbacterial regional; cat-scratch fever, 383
Lymphoid tissue, heterotopic—diagnostic problem, 87
Lymphosarcoma of mandible, 350
Lysozyme, presence of, in root canals, 993

M

Macrocheilia, 1025
Malherbe, calcifying epithelioma of, in dog, 1081
Malignant oral lesions, cooperation between dental and medical professions in diagnosing and treating; instructive clinical case reports, 1247
tumors, 224, 450, 897, 1010, 1123 (Absts.)
Mandible, aberrant salivary gland tissue in, 1086
benign giant-cell tumor of, 556
bilateral ostectomy of; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty, Part I, 678
central giant-cell reparative granuloma of, 11
odontogenic fibromyxoma of, 690
compound fracture of, and horizontal fracture of maxilla, 345
cystic odontoma of, 807
developmental median cyst of, 75
endosteal fibrosarcoma of, 661
eosinophilic granuloma of, 801
fibrous dysplasia of, 285
fracture of, head injury with, 470
lymphosarcoma of, 350
massive osteoma of, 243
periostitis ossificans of, secondary to congenital syphilis, 1254
squamous-cell carcinoma of, from irritation by prosthesis (beitrag zum problem: zahnäztliche prothese und mundhöhlen-karzinom), 450 (Abst.)
surgery of: some clinical and experimental considerations, 110 (Abst.)
Mandibular artery and arterioles, human, histopathology of, in periodontal disease, 1047
cyst, intraoral enucleation of, with implantation of Gelfoam and primary closure, 1033
median, 69
dentigerous cysts, potentialities of oral epithelium manifest by, 271
first molar, endodontic treatment of, 210
fracture; intraoral open reduction, 480
multiple, 586
joint, diseases of, 565 (Abst.)
prognathism, osteotomy of horizontal ramus to correct, 1334 (Abst.)
and retrognathia, surgical correction of, with consideration of genioplasty. Part I. Surgical procedures to correct mandibular prognathism and reshaping of chin, 677
Part II. Operating methods for microgenia and distoclusion, 787, 899
ramus, nonspecific pathology involving body and major portion of, 464

Mandibular—Cont'd
second and third permanent molars, developmental anomaly of, due to injury, 759
Materia medica and prescription writing for dentists, 894 (B. rev.)
Maxilla, chondrosarcoma of, 97
dentigerous cyst of, 118
horizontal fracture of, and compound fracture of mandible, 345
reticulum-cell sarcoma of, 819
Maxillary sinus, carcinoma of, anesthesia of cheek early sign of, 897 (Abst.)
carcinosarcoma of, 1065
disease of dental origin, prevention of, 696
Maxillitis, acute, of infancy, 715
Maxillo-facial injuries, dental treatment of, 447 (B. rev.)
Mechanism of pain as it applies to dentistry, interpretation of, 495
Median cyst, developmental, of mandible, 75
mandibular cysts, 69
palatine cyst, case report of, with criteria for differential diagnosis, 237
Medical College of Virginia, 336, 893, 1120
Medicine, oral, 109, 449, 674, 1008, 1238, (Absts.); 37, 148, 253, 363, 495, 601, 735, 831, 938, 1060, 1176, 1277
and oral surgery, studies in diagnosis in, 97, 556, 993
diagnosis and treatment, 1007 (B. rev.)
Melanoma, juvenile, of tongue, 786
Melanotic pigmentation, oral, in polyostotic fibrous dysplasia—Albright's syndrome, 857
Meprobamate, use of, in dental procedures, clinical observations on, 1281
Metacortandracine and cortisone, use of, in odontostomatology, 449 (Abst.)
Metastatic chorionepithelioma of gingival tissue, 813
Mexican Society of Endodontia and Mexican National University offer postgraduate course in endodontics, 1005
Micrococcus pyogenes var. aureus in saliva of penicillin-treated and nontreated individuals, comparative study of, 885
Microgenia and distoclusion, operating methods for; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty, 787, 899
Micrognathia, surgical treatment of, 450 (Abst.)
Micrognathism corrected by vertical osteotomy of ascending ramus and iliac bone graft: new technique, 1125
Microorganisms from unexposed canals of pulp-involved teeth, isolation and identification of, 1094
Mid-Atlantic States Conference in Dentistry, eighth, 336
Mid-Continent Dental Congress, 1957, 1118
Mixed tumors of salivary glands, 786 (Abst.)
total parotidectomy for, 110 (Abst.)
Molar, lower third, operative displacement of, complicated by emphysema, 355
mandibular first, endodontic treatment of, 210
second and third permanent, developmental anomaly of, due to injury, 759
Mount Sinai Hospital (New York), 1234
Mouse, age changes in periodontium of, 430
Mouth, chronic scarring aphthous ulcers of, 370
determination of hydrogen ion concentration in—comparison of glass, antimony, and quinhydrone micro-electrodes, 224 (Abst.)
hydrogen ion concentration in, studies of. II. Effects of rinsing and of beverages on hydrogen ion concentration, 1238 (Abst.)
leprosy of, 610
Mucoceles, pathogenesis of, 310
Mucoepidermoid tumor of minor salivary gland, 948
Mucosal carcinomas as result of irradiation, 1123 (Abst.)
Mucous cells in papillary cystadenoma lymphomatosum, on occurrence of, 1091
membranes, familial white folded hypertrophy of, 262
Multilocular cystic disease of jaws, familial; cherubism, 952
Myeloma, multiple, involving jaws, 910
plasma-cell; clinical pathological conference (Case 2), 179
Myelomatosis, oral amyloid as complication of, 735
Myoblastoma, granular-cell, of newborn, 1037

N

Natal and neonatal teeth, 509
Neck and head, frontal section anatomy of, 1236 (Abst.)
Necrosis, acute periapical, from arsenical pulp devitalizer, 216
radiation, of soft tissues of oral cavity, treatment of: report of two cases, 1010 (Abst.)
Nematode infestation of buccal submucosa, 612
Neonatal and natal teeth, 509
Neurinoma; two neurogenic tumors of oral cavity, 32
Neurogenic tumors, two, of oral cavity, 32
Neuroma, amputation, 475
two neurogenic tumors of oral cavity, 32
Newborn, congenital epulis of, 1219
granular-cell myoblastoma of, 1037

New York Institute of Clinical Oral Pathology, Inc., 333, 444, 671, 781, 1004
twenty-fifth anniversary meeting of, 1330
University College of Dentistry, 106, 444, 783, 1120
Nonbacterial regional lymphadenitis; cat-scratch fever, 383
Nonspecific pathology involving body and major portion of mandibular ramus, 464
Novobiocin, clinical and bacteriologic evaluation of, in seventy-five patients, 1009 (Abst.)

O

Occlusion, orthodontic and prosthetic, and temporomandibular joint, 1238 (Abst.)
Odontogenic fibromyxoma, central, of mandible, 690
Odontological Federation of Central America and Panama, 446
Odontoma, compound composite, 828
cystic, of mandible, 807
Odontome, dilated composite (dens invaginatus). I. Variations of invagination process and associated anterior crown forms, 1204
II. Associated posterior crown forms and pathogenesis, 1302
Odontostomatology, use of cortisone and metacortandracine in, 449 (Abst.)
Operative dentistry, clinical, 108 (B. rec'd)
displacement of lower third molar complicated by emphysema, 355
oral surgery, 1, 111, 225, 339, 453, 567, 677, 787, 889, 1011, 1125, 1239
Oral amyloid as complication of myelomatosis, 735
anatomy and histology, 323, 437
cancer and tumors of jaws, 108 (B. rev.)
cavity, pre-invasive epidermoid carcinoma of, 84
radiation necrosis of soft tissues of, treatment of: report of two cases, 1010 (Abst.)
treatment of acute ulcerative lesions of, 1176
two neurogenic tumors of, 32
epithelium, potentialities of, manifest by mandibular dentigerous cysts, 271
histology and embryology, 895 (B. rev.)
manifestations of cretinism, 938
of generalized systemic amyloid disease, 743
medicine, 109, 449, 674, 1008, 1238 (Absts.); 37, 148, 253, 363, 495, 601, 735, 831, 938, 1060, 1176, 1277
and oral surgery, studies in diagnosis in, 97, 556, 993
diagnosis and treatment, 1007 (B. rev.)
Oral—Cont'd
melanotic pigmentation in polyostotic fibrous dysplasia—Albright's syndrome, 857
pathology, 109, 786, 1008, 1238, 1333 (Absts.); 69, 175, 271, 388, 509, 634, 759, 847, 948, 1065, 1204, 1302
application of histochemical methods to, 296
roentgenology, 63, 627, 749, 839, 1291
surgery, 110, 338, 450, 785, 1009, 1334 (Absts.)
and oral medicine, studies in diagnosis in, 97, 556, 993
history of, 1
operative, 1, 111, 225, 339, 453, 567, 677, 787, 889, 1011, 1125, 1239
plasma thromboplastin antecedent (PTA) deficiency and, 55
therapeutics, pharmacology and, 221 (B. rev.)
tumors, malignant, 224, 450, 897, 1010, 1123 (Absts.)
Orthodontic chrome steel appliance, simple, for treatment of jaw fractures, 23
practice (kieferorthopädische praxis), 222 (B. rev.)
Ostectomy of mandible, bilateral; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty. Part I, 678
Osteitis, alveolar, report on use of crystalline trypsin in treatment of, 1166
deformans; Paget's disease, 643
Osteogenic sarcoma of jaw, 1156
Osteoma, massive, of mandible, 243
Osteomyelitis, infantile, condylar loss due to, 28
Osteoradionecrosis, dental aspects of, 1011
Osteotomy of horizontal ramus to correct mandibular prognathism, 1334 (Abst.)
of ramus; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty, 677, 899
vertical, of ascending ramus and iliac bone graft, micrognathism corrected by, 1125
Otolaryngology, practical, 1237 (B. rev.)
Ovariectomy, effect of, upon tissues of periodontium and skeletal bones. I. Effect of ovariectomy upon alveolar bone, periodontal membrane, and tibia, 133

P

$P^{32}$ and $Ca^{45}$ uptake in jaws and knee joints of adult rats, radioautographic study of, 541
Pack, gingivectomy, tissue reaction to, 923
Paget's disease, 643
Pain, mechanism of, as it applies to dentistry, interpretation of, 495

Pain—Cont'd
relief of, by removal of retained root tip, 360
thresholds and factors which modify them, 1192
Palate, hard and soft, Kaposi's sarcoma of, 522
pedunculated hemangioma of, 920
Papillary cystadenoma lymphomatosum, on occurrence of mucous cells in, 1091
Parapharyngeal space abscess, delayed management of, 1041
Parotid gland, congenital capillary hemangiomas of—lesion characteristic of infancy, 109 (Abst.)
Parotidectomy, total, for mixed tumors, 110 (Abst.)
Partial dentures, 1122 (B. rev.)
Pathogenesis of mucoceles, 310
Pathological conference, clinical, 175
Pathology, nonspecific, involving body and mandibular portion of mandibular ramus, 464
oral, 109, 786, 1008, 1238, 1333 (Absts.); 69, 175, 271, 388, 509, 634, 759, 847, 948, 1065, 1204, 1302
application of histochemical methods to, 296
speech, handbook of, 896 (B. rev.)
synopsis of, 784 (B. rev.)
Patients, dental, physiologic response to stress in, 377
hypertensive, use of epinephrine with local anesthesia in, 566 (Abst.)
Pediatric dentistry, 895 (B. rev.)
Pedodontics, clinical, 1007 (B. rev.)
Pedunculated hemangioma of hard palate, 920
Pemphigus, fate of patients with, under cortisone therapy, 1009 (Abst.)
Penicillin-treated and nontreated individuals, Micrococcus pyogenes var. aureus in saliva of, comparative study of, 885
Periadenitis mucosa necrotica recurrens; chronic scarring aphthous ulcers of mouth, 370
Periapical necrosis, acute, from arsenical pulp devitalizer, 216
tissues, infections and tumors arising in and from, 1291
Periodontal disease, histopathology of human mandibular artery and arterioles in, 1047
in rice rat. IV. Effects of antibiotics on incidence of periodontal lesions, 1169
therapy, regeneration of bone following, 247
treatment, surgical procedures in, 566 (Abst.)
Periodontia, 566 (Abst.); 133, 247, 484, 590, 725, 923, 1047, 1169, 1268
Periodontium and skeletal bones, effect of ovariectomy upon tissues of. I. Effect of ovariectomy upon alveolar bone, periodontal membrane, and tibia, 133
and teeth, innervation of, after enzymatic removal of collagenous elements, 323
of mouse, age changes in, 430
Periostitis ossificans, 129
of mandible secondary to congenital syphilis, 1254
Pharmacology and oral therapeutics, 221 (B. rev.)
and therapeutics, 614, 1183, 1281
Physiologic anesthetic technique; dental treatment for handicapped, 601
foundation of dental practice, 222 (B. rev.)
response to stress in dental patients, 377
Pigmentation, oral melanotic, in polyostotic fibrous dysplasia—Albright's syndrome, 857
Plasma thromboplastin antecedent (PTA) coagulation factor, bleeding from deficiency of, 225
deficiency and oral surgery, 55
Plastic surgery, principles and art of, 1006 (B. rev.)
Polyostotic fibrous dysplasia—Albright's syndrome, oral melanotic pigmentation in, 857
Polyp, antral, case of intraoral prolapse of, 450 (Abst.)
Postoperative distress in removal of impacted teeth, antihistamines and their value in allaying, 122
Postradiation bone sarcoma, 898 (Abst.)
Prednisone, suppressive action of, in treatment of chronic scarring aphthous ulcers of mouth, 370
Preinvasive epidermoid carcinoma of oral cavity, 84
Premolar, impacted, deeply embedded, acute infection associated with, 1044
Prescription writing and materia medica for dentists, 894 (B. rev.)
Preventive dentistry, symposium on, 448 (B. rev.)
Primacaine hydrochloride in practice of endodontology, clinical evaluation of, 765
Primary closure, intraoral enucleation of mandibular cyst with implantation of Gelfoam and, 1033
Professional news items, 105, 218, 333, 444, 563, 671, 781, 891, 1004, 1118, 1232, 1330
Prognathism, mandibular, osteotomy of horizontal ramus to correct, 1334 (Abst.)
and retrognathia, surgical correction of, with consideration of genioplasty. Part I. Surgical procedures to correct mandibular prognathism and reshaping of chin, 677
Part II. Operating methods for microgenia and distoclusion, 787, 899

Progressive intradental processes of resorption, roentgen and differential diagnosis of, 338 (Abst.)
Prosthesis, production of total (gestaltung der totalen prothese), 222 (B. rev.)
squamous-cell carcinoma of mandible from irritation by (beitrag zum problem: zahnäztliche prothese und mundhöhlen-karzinom), 450 (Abst.)
Proteolytic organisms of carious lesion, 1105
PTA (plasma thromboplastin antecedent) coagulation factor, bleeding from deficiency of, 225
Pulp abscess associated with actinomyces, 207
amputated, histologic response of, to calcium compounds and antibiotics, 975
amputation; internal resorption of dentine, 90
chambers in intact teeth found to be nonvital following trauma, bacteriologic status of, 318
devitalizer, arsenical, acute periapical necrosis from, 216
exposures, hamster, effect of blood clotting on, 313
Pulp-involved teeth, isolation and identification of microorganisms from unexposed canals of, 1094
of spirochetes obtained from unexposed canals of, 1100
Pulpitis resulting from incomplete tooth fracture, 665

R

Radiation effect on bone; dental aspects of osteoradionecrosis, 1013
necrosis of soft tissues of oral cavity, treatment of: report of two cases, 1010 (Abst.)
Radioactive isotopes, cellular and chemical remodeling of bones and teeth as revealed by, relative significance of, 167
Radiograph, dental, origin of registration of architectural pattern, lamina dura, and alveolar crest in, 749
Radiography, dental, filter and collimating system for protection in, 627
Radionecrosis of jaws, some aspects of problem of, 109, 675 (Absts.)
Radiotherapy in management of cancer patient, 224 (Abst.)
Ramus, horizontal, osteotomy of, to correct mandibular prognathism, 1334 (Abst.)
mandibular, nonspecific pathology involving body and major portion of, 464
osteotomy of; surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty. Part I, 677
Ranulae, 567
Rats, adult, $P^{32}$ and $Ca^{45}$ uptake in jaws and knee joints of, radioautographic study of, 541
oral tissues, histologic responses of, to nonoral tumor growth and to cancer chemotherapeutic agents. I. Periodontal tisues, 847
II. Tongue, salivary glands, and oral mucosa, 1075
Reactive tooth positioning, 725
Reamer and file widths, root canal, microscopic investigation of, 532
Regeneration of bone following periodontal therapy, 247
Regional lymphadenitis, nonbacterial; cat-scratch fever, 383
Registration of architectural pattern, lamina dura, and alveolar crest in dental radiograph, origin of, 749
Rehabilitation seminar to be feature of midwinter meeting of American Academy of Dental Medicine, 1004
Remodeling, cellular and chemical, of bones and teeth as revealed by radioactive isotopes, relative significance of, 167
Renal pelvis and bladder, leukoplakia of, 898 (Abst.)
Research, 430, 541, 769, 874, 987, 1323
clinical and laboratory, 224, 675 (Absts.)
Resorption, internal, 193
of dentine, 90
progressive intradental processes of, roentgen and differential diagnosis of, 338 (Abst.)
Retained root tip, relief of pain by removal of, 360
Reticulum-cell sarcoma of maxilla, 819
Retrognathia, surgical correction of mandibular prognathism and, with consideration of genioplasty. Part I. Surgical procedures to correct mandibular prognathism and reshaping of chin, 677
Part II. Operating methods for microgenia and distoclusion, 787, 899
Review of literature, 107, 221, 337, 447, 565, 674, 784, 894, 1006, 1122
Reviews of new books, 107, 221, 447, 784, 894, 1006, 1122, 1236
Rheumatoid arthritis; intra-articular fibrous ankylosis of temporomandibular joint, 634
Rice rat, periodontal disease in. IV. Effects of antibiotics on incidence of periodontal lesions, 1169
Roentgen treatment, giant-cell tumors and, 1008 (Abst.)
Roentgenogram, intraoral, intensification of, by toning, 839

Roentgenographic manifestations of scleroderma, 307
Roentgenology, 338 (Abst.)
oral, 63, 627, 749, 839, 1291
Root canal, antibacterial effect of residual bacitracin during culturing from, 426
file and reamer widths, microscopic investigation of, 532
presence of lysozyme in, 993
therapy, obtaining access for effective, 1227
tip, retained, relief of pain by removal of, 360

S

St. Louis University, 563
Saliva, acid formation by, role of Lactobacillus casei and Streptococcus salivarius in, 675 (Abst.)
of penicillin-treated and nontreated individuals, comparative study of Micrococcus pyogenes var. aureus in, 885
Salivary calculus, studies on, 874
gland, minor, mucoepidermoid tumor of, 948
mixed tumors of, 786 (Abst.)
surgery of (chirurgie des glandes salivaires), 223 (B. rev.)
tissue, aberrant, in mandible, 1086
tumors presenting as primary jaw tumors, 1262
Sarcoma, bone, postradiation, 898 (Abst.)
Kaposi's of hard and soft palate, 522
osteogenic, of jaw, 1156
reticulum-cell, of maxilla, 819
Scleroderma, roentgenographic manifestations of, 307
Sebaceous adenoma in dog, 304
Serum hepatitis following dental procedures, 1009 (Abst.)
Sinus disease, maxillary, of dental origin, prevention of, 696
maxillary, carcinosarcoma of, 1065
Sleeping time, effects of multiple injections of thiopental sodium on, and physiologic disposition of drug in male rats, 1183
Speech pathology, handbook of, 896 (B. rev.)
Spirochetes obtained from unexposed canals of pulp-involved teeth, isolation and identification of, 1100
Splinted anterior teeth, force distribution in, 484
posterior teeth, force distribution in, 1268
Splints, fixed (festsitzende schienungen), 1334 (Abst.)
Squamous-cell carcinoma of lip, 575
Sterling-Rock Falls Prosthetic and Rehabilitation Center offers facial and surgical prosthetics summer school, 782
Stomatitis, infectious, 1060
with Taenia saginata, 1277
Stratum intermedium, role of, in tooth development, 437
Streptococcus salivarius and Lactobacillus casei, role of, in acid formation by saliva, 675 (Abst.)
Stress, physiologic response to, in dental patients, 377
Sturge-Weber disease, 388
Surgery, dental (zahnärztliche chirurgie), 222 (B. rev.)
of mandible: some clinical and experimental considerations, 110 (Abst.)
operative oral, 1, 111, 225, 339, 453, 567, 677, 787, 889, 1011, 1125, 1239
oral, 110, 338, 450, 785, 1009, 1334 (Absts.)
and oral medicine, studies in diagnosis in, 97, 556, 993
history of, 1
plasma thromboplastin antecedent (PTA) deficiency and, 55
plastic, principles and art of, 1006 (B. rev.)
Surgical correction of mandibular prognathism and retrognathia with consideration of genioplasty. Part I. Surgical procedures to correct mandibular prognathism and reshaping of chin, 677
Part II. Operating methods for microgenia and distoclusion, 787, 899
procedures in periodontal treatment, 566 (Abst.)
treatment of micrognathia, 450 (Abst.)
Symptoms associated with temporomandibular joint, 339
Syndrome, focal, endotheliomyelosis—experimental model of, 37
Syphilis, congenital, periostitis ossificans of mandible secondary to, 1254
Systemic amyloid disease, generalized, oral manifestations of, 743

T

Taenia saginata, stomatitis with, 1277
Tantalum and acrylic prosthesis; adamantinoma, 110 (Abst.)
Teeth and bones, cellular and chemical remodeling of, as revealed by radioactive isotopes, relative significance of, 167
and periodontium, innervation of, after enzymatic removal of collagenous elements, 323
and right antrum, chronic simple glaucoma associated with foci of infection of, 500

Teeth—Cont'd
and their surrounding structures, Kronfeld's histopathology of, 107 (B. rev.)
impacted, removal of, antihistamines and their value in allaying postoperative distress in, 122
intact, found to be nonvital following trauma, bacteriologic status of pulp chambers in, 318
malposed; instructive clinical case reports, 1243
natal and neonatal, 509
origin of, in Amblystoma punctatum, 987
pulp-involved, isolation and identification of microorganisms from unexposed canals of, 1094
of spirochetes obtained from unexposed canals of, 1100
splinted anterior, force distribution in, 484
posterior, force distribution in, 1268
Telangiectasia, hereditary hemorrhagic, 253
Temple University School of Dentistry, 564, 672, 1005
Temporomandibular joint and orthodontic and prosthetic occlusion, 1238 (Abst.)
ankylosis of, 1145
quelques conclusions concernant les principles et les méthodes de traitement dans l'ankylose tempero-mandibulaire, 565 (Abst.)
cinefluorography, with image intensification, in study of, preliminary work on, 63
intra-articular fibrous dysplasia of, 634
symptoms associated with, 339
Tetanus of oral origin, 831
Therapeutics and pharmacology, 614, 1183, 1281
Thiopental sodium, effects of multiple injections of, on sleeping time and physiologic disposition of drug in male rats, 1183
Thyroglossal tract abnormalities, 1131
Tissue, aberrant salivary gland, in mandible, 1086
gingival, metastatic chorionepithelioma of, 813
heterotopic lymphoid—diagnostic problem, 87
reaction to gingivectomy pack, 923
Tongue, cancer of, and its metastases: clinico-statistical report on 772 cases, 1124 (Abst.)
natural history and effects of treatment of, 898 (Abst.)
juvenile melanoma of, 786 (Abst.)
Toning, intensification of intraoral roentgenograms by, 839
Tooth development, role of stratum intermedium in, 437
Tooth—Cont'd
fracture, incomplete, pulpitis resulting from, 665
positioning, reactive, 725
Toxic fluids, accidental injection of, 1287
Training of oral surgeons; history of oral surgery, 4
Tranquilizers; clinical observations on use of meprobamate in dental procedures, 1281
Trauma, pulp chambers in intact teeth found to be nonvital following, bacteriologic status of, 318
Treatment, dental, of maxillo-facial injuries, 447 (B. rev.)
endodontic, of mandibular first molar, 210
of jaw fractures, simple orthodontic chrome steel appliance for, 23
surgical, of micrognathia, 450 (Abst.)
Trypsin, crystalline, use of, in treatment of alveolar osteitis, report on, 1166
Tufts University School of Dental Medicine, 106, 673, 783, 892, 1005, 1331
Tumors and cysts of jaws, 453
giant-cell, and roentgen treatment, 1008 (Abst.)
benign, of mandible, 556
growth, nonoral, histologic responses of rat oral tissues to, and to cancer chemotherapeutic agents. I. Periodontal tissues, 847
II. Tongue, salivary glands, and oral mucosa, 1075
and infections arising in and from periapical tissues, 1291
malignant oral, 224, 450, 897, 1010, 1123 (Absts.)
mixed, of salivary glands, 786 (Abst.)
total parotidectomy for, 110 (Abst.)
mucoepidermoid, of minor salivary gland, 948
neurogenic, two, of oral cavity, 32
of enamel organ epithelium, 652
of jaws and oral cancer, 108 (B. rev.)
of salivary gland origin presenting as primary jaw tumors, 1262
pseudoparotid; calcifying epithelioma of Malherbe in dog, 1081
